2016 STAMP FESTIVAL

In the early days, red cylindrical pillar boxes that were heavy and made of metal could be seen on the streets of Hong Kong and Macao. However, after Hong Kong and Macao have become Special Administrative Regions following their return to the Motherland, their pillar boxes have changed in both shapes and colours. The deadline of application the “**Tour of Special Pillar Boxes in Hong Kong**” on February 3 & 4, 2017 will be on January 5. You are welcomed to join us to discover the changes of pillar boxes in Hong Kong. In addition, all participation works of the “**Draw My Story of Stamps Contest**” and “**Creative Savings Box Construction Contest**” will be exhibited at the Temporary Exhibition Gallery on the ground floor of Communications Museum from December 11. All are welcomed to visit!

EXHIBITION-IN-SCHOOL - APPRECIATING CREATIVE STAMPS

郵政局 Direcção dos Serviços de Correios

Modern stamps are not only fabricated with paper! In addition to the two series of telecom portable exhibitions - “Music with Electromagnetism” and “Evolution of Telecommunications Technology”, a new philatelic portal exhibition “Appreciating Creative Stamps” is recently launched by the Museum to show stamps made with different materials and/or fabricated by special techniques. Visitors not only can see with their eyes, but they can also touch and feel the stamps made of special materials and learn their interesting facts. These portable exhibits are especially created for exhibiting in schools so that students can conveniently view them during their lesson time or after school. Schools are welcomed to book and bring the exhibition into their school campuses.

For details of the activities above mentioned, please refer to the Museum website (<http://macao.communications.museum>).
