Social Security Fund

The Social Security Fund Authority is under the supervision of the Secretary for Social Affairs and Culture, and is responsible for implementing various policy measures concerning social security and managing relevant resources.

The Social Security Fund was set up on 23 March, 1990, with a primary objective of providing social security to local employees. With the exacerbated social phenomenon of ageing, residents' demand for universal coverage is growing. In November 2008, the Government announced the Social Security and Old-age Pension System Reform Program. Its core aim is to build a double-tier social security system, founded on the first-tier social security system, so that all Macao residents can have the chance to enjoy basic social protection, particularly old-age protection, to improve their quality of life, with more ample protection for retirement life supported by the second-tier, non-mandatory Central Provident Fund.

Social Security System

Law No. 4/2010 – “Social Security System” came into effect on 1 January 2011. It is the first tier of the double-tier social security system. This system operates according to the principles of social insurance. Its income derives from appropriation from gaming, a one-percent appropriation from the recurrent income of the Government Budget, three percent of the central executive budget balance by the end of every fiscal year, the contributions of employees, employers and arbitrary contributors, employment fees for non-resident workers, and the income of the investment of the Social Security Fund.

Contributions

The Social Security System comprises an obligatory contribution system and an arbitrary contribution system. Employees and their employers are required to make obligatory contributions to the Social Security Fund, at an 90 patacas per month (60 patacas by employers and 30 patacas by employees), and other residents who comply with the relevant legal requirements can make contributions by enrolling in the arbitrary system, with the full amount of contributions – 90 patacas per month, to be paid by the beneficiaries themselves.

In 2022, a total of 354,000 beneficiaries made their contributions. They included around 286,000 employees and 68,000 voluntary contributors (including in-service public servants registered in the retirement and pension system). The contributions totalled around 380 million patacas.

Various Social Security Benefits and Allowances

According to the current social security system, eligible beneficiaries are legally entitled to pensions, disability allowance, unemployment allowance, sickness allowance, funeral allowance, marriage allowance, birth allowance and compensations for respiratory occupational diseases.

In 2022, various benefits were given to 148,000 people, 137,000 of whom received pensions. Besides, allowances were given to 20,000 people. Social security payments totalled about 5.67 billion patacas, including around 5.02 billion patacas for pensions (including the additional payment in January).

Non-mandatory Central Provident Fund System

Law No. 7/2017 - Non-mandatory Central Provident Fund System (or non-mandatory CPF) came into effect on 1 January 2018. It is the second tier in the double-tier social security system, and was established to enhance retirement protection for citizens of the MSAR, and to fill a gap in the existing social security system.

The non-mandatory CPF consists of an allocation system and a contribution scheme and. An account holder may make regular contributions via a contribution plan, and seek wealth accumulation through investment, making better preparation for an ample retirement protection in future.

Individual Account of Non-mandatory CPF

MSAR citizens falling into the following categories may become individual account holders of non-mandatory CPF:

1. Aged 18 or above;
2. Under the age of 18, but registered into the social security system in accordance with the law

An individual account of non-mandatory CPF comprises a sub-account managed by the government, a contribution sub-account, and a preserved sub-account.

Contribution Scheme

There are a joint provident fund scheme and an individual provident fund scheme under the non-mandatory CPF. A joint provident fund scheme is designed for an employee. A participating employee and his or her employer make a contribution equivalent to five percent of the employee's basic salary on a monthly basis. An individual provident fund scheme is designed for all account holders with a monthly minimum contribution amount of 500 patacas, and a maximum amount of 3,300 patacas. The maximum and minimum caps to the contribution are linked to the Law on the Minimum Wage for Workers. In 2022, 285 employers and a total of around 26,000 employees joined the non-mandatory CPF scheme; and about 85,000 people joined the individual non-mandatory CPF scheme. The contribution can be invested into the pension funds under non-mandatory CPF for wealth accumulation, and managed by qualified fund management entities. By the end of 2022, there were seven fund management entities providing 42 open-end pension funds.

Upon termination of employment, the employee may be entitled to the accumulated benefits in the employer's part, according to the length of contribution and the applicable vesting schedule. Since an individual non-mandatory CPF account is portable, the benefits in the contribution scheme will not be cleared and withdrawn due to employment termination, and can maintain the account for continued investment.

Allocation Scheme

Account holders who are alive on 1 January in the allocation year, and meet the following requirements within the year prior to the allocation, are eligible for a one-off Incentive Basic Fund of 10,000 patacas:

1. Permanent residents of the Macao Special Administrative Region;
2. Aged 22 or above; and
3. Resided in Macao for at least 183 days.

If the Government's budget implementation in previous fiscal years allows, account holders who fulfil the above requirements may receive the special allocation of funds if there is a budget surplus. These amounts are recorded in sub-accounts managed by the Government. The funds provided may be kept for accumulation, or transferred to the contributor's account or preserved sub-account for investment through proper transfer application.

In 2022, there were 613,000 Provident Fund Individual Account holders, of whom 9,938 initially fulfilled the requirements and were eligible for 10,000 patacas of the Incentive Basic Fund. In view of the fact that the SAR government's public finances did not record a budget implementation surplus in 2021, the special allocation funds for the budget surplus were not released in 2022. At the end of

January 2023, the maximum accumulated appropriation and interest income of an account holder's sub-account managed by the Government was 77,000 patacas. If an account owner was eligible for the special allocation of a budget surplus since 2010, and has never transferred out, transferred or withdrawn funds from the government-managed sub-account, the accumulated interest income was up to 12,871 patacas.

Fund Withdrawal

To meet the objective of providing more ample retirement protection, in general an account holder must be aged 65 or above, and must fulfil other withdrawal conditions, before he or she can apply for fund withdrawal from his or her individual account. In 2022, there were 12,000 approved applications for withdrawals, resulting in a disbursement of 900 million patacas.

Public Housing Policy

The Housing Bureau strives to implement the Government public housing policy rationally to prioritise the allocation of public rental housing resources, with priority to be given to low-income families.

To meet the people's housing needs, the Infrastructure Development Office has launched a number of public housing projects since 2007. More than 10 Home-Ownership Scheme Housing and public housing projects were completed, including Edificio do Lago, Taipa; the public housing estates in Seac Pai Van; Bairro da Ilha Verde Building; the, second phase of the Mong Ha Public Housing project; and reconstruction of the sports centre. Public housing projects that are underway include: Avenida de Venceslau of Morais Public Housing project, and lots B4, B9, B10, A1, A2, A3, A4 and A12 of New Urban Zone Area A public housing phase 1. Tender procedures for the public housing of lots A5, A6, A10 and A12 in New Urban Zone Area A were completed in late 2022.

To implement the housing scheme for senior citizens proposed in the policy address, around 1,800 open-style units (T0) and the auxiliary social service facilities are being built on a piece of land of 6,828 square metres adjacent to Areia Preta Av. Nordeste.

Public Housing

Public housing units are distributed in the form of leasing by the Government to families of weak financial standing or with special difficulties. Families of weak

financial standing are defined as those whose monthly household incomes and net asset values fall beneath the legally stipulated levels as stipulated by Executive Order. The allocation and leasing of public housing are regulated by Law No. 17/2019 – Legal System for Public Housing and By-law No. 30/2020 – By-law of Rules for the Implementation of the Legal System for Public Housing.

The Housing Bureau launched a new round of open applications for public housing in November 2017. After a review of the applications, a waiting list was announced in February 2019, covering 6,355 households. As of 31 December 2022, all applications on the waiting list had been processed. Among them, 3,810 households were allocated housing, and 2,545 households gave up their applications or were delisted.

Public housing was open for ongoing application from 20 August 2020 onwards. As of 31 December 2022, after a review of the applications, a total of 3,283 applications were accepted, with 1,259 of the households allocated housing.

Home-Ownership Scheme Housing

In the early years, Home-Ownership Scheme housing units were sold to families on the Housing Bureau's waiting list on terms and at prices stipulated in the land grant contracts by the bureau in accordance with Decree-Law No. 13/93/M.

Pursuant to Law No. 10/2011 – “The Home-Ownership Scheme Housing Law” re-promulgated by Executive Order No. 200/2020, the construction of Home-Ownership Scheme Housing is led by the Government and executed by the Housing Bureau or other public authorities appointed by the Chief Executive.

Home-Ownership Scheme Housing is intended to assist Macao residents of a particular income level and financial situation to meet their housing needs, and to promote a housing supply that suits the practical needs and purchasing power of Macao residents.

The process of allocating 1,900 multiple-room Home-Ownership Scheme housing units to those who submitted general applications at the end of 2013 is still under progress. As at 31 December 2022, a total of 1,893 family applicants were allocated housing units.

General application for 3,011 housing units began at the end of November 2019. Detailed assessments of the first batch of 3,011 selected applicants and second batch of 700 selected applicants were completed in July 2021 and March 2022, respectively; and were followed by the third batch of detailed assessments of 500 selected applicants. As of 31 December 2022, there were 2,788 eligible applications, 129 applications under legal procedures, 762 ineligible applications, 115 withdrawn applications, 79 applications with changed priorities, and 338 applications with ongoing assessments.
